

BACHELOR'S DEGREE STUDIES

Study program: **Finance and Financial Technologies**
Form of study: **Full-time (3 years)**
ECTS credits: **180**
Tuition fee: **54,000 CZK = 2,100 EUR**

The aim of this professionally focused degree programme is to prepare graduates for working in business and financial institutions in positions of lower and middle management, with the ability to make independent decisions and apply a systematic and creative approach to problem solving. In addition to acquiring knowledge and skills in the fields of finance, controlling, business economics, accounting, taxes, financial markets, investment and financial technology, the aim is to acquaint students with the general fundamentals of economics, law, management and human resources.
